

Workware ERP Suite

Tailored ERP solution for your business

Workware ERP Solution for Ald Dynatech Furnaces

Executive Summary

ALD Dynatech is India's largest manufacturer of vacuum heat treatment furnace systems. The company designs and manufactures turn-key vacuum heat treatment systems for various applications in end user industries such as Aerospace, Commercial Heat Treating, Automobiles, Tools & Dies, and Powder Metallurgy etc. They have witnessed significant changes that include process improvements, environmental conscious manufacturing, reducing time to manufacture and constant need to launch new products with innovation. Due to these dynamics this sector has been an early adapter of ERP, such as this company making special purpose machines with standard configuration, yet customized as per customer specific requirements. Workware ERP has been able to get many projects in these domains due to combination of affordable price, delivery, and well defined implementation methodology. After discussion with management, a multipronged strategy was implemented. After implementing the strategy, at the end of first year inventory carrying cost was reduced by 18% there by improving bottom line.

Challenges faced by Ald Dynatech

Ald Dynatech, going through a rapid growth path, found its existing systems obsolete to meet the growing business needs. Primary challenge areas identified were:

- Lack of Smoother and faster process flow
- Inefficient distribution of information
- lack of transparency and better control
- Insufficient Protection/ Security of data
- Wastage, scrap, rejection handling
- Lack of Sub-Contractor Traceability
- Improper Inventory management of raw materials
- Lack of Automatic integration of key business processes, such as sales, purchase, production, QC, accounts, excise, etc.

Solution offered to Ald Dynatech

An Easy to Use ERP System with Strong Production Environment, Comprehensive Reporting, and Complete Visibility across the Entire Enterprise

Workware accommodates the needs of both small and large manufacturing, sales and distribution organizations and gives everyone in the company, complete control over their work area.
