

Workware ERP Suite

Tailored ERP solution for your business

Workware ERP Solution for Keetronics India Pvt. Ltd.

Executive Summary

Keetronics (India) Pvt. Ltd. is a fast growing company that specialises in manufacturing PCF & PCB membrane Switches, Customised Computer Keyboards with the latest Duraswitch and Capactive technology, for the past 23 years. Due to these dynamics this sector has been an early adapter of ERP, such as this company making special purpose machines with standard configuration, yet customized as per customer specific requirements. Workware ERP has been able to get many projects in these domains due to combination of affordable price, delivery, and well defined implementation methodology.

After discussion with management, a multipronged strategy was implemented. After implementing the strategy, at the end of first year inventory carrying cost was reduced by 18% there by improving bottom line.

Challenges faced by Keetronics

Keetronics, going through a rapid growth path, found its existing systems obsolete to meet the growing business needs. Primary challenge areas identified were:

- Improper Management of rapidly growing stocks and inventory
- Inefficient Planning and managing production matched to demand and supply
- Lack of Reporting needs for financial decision making

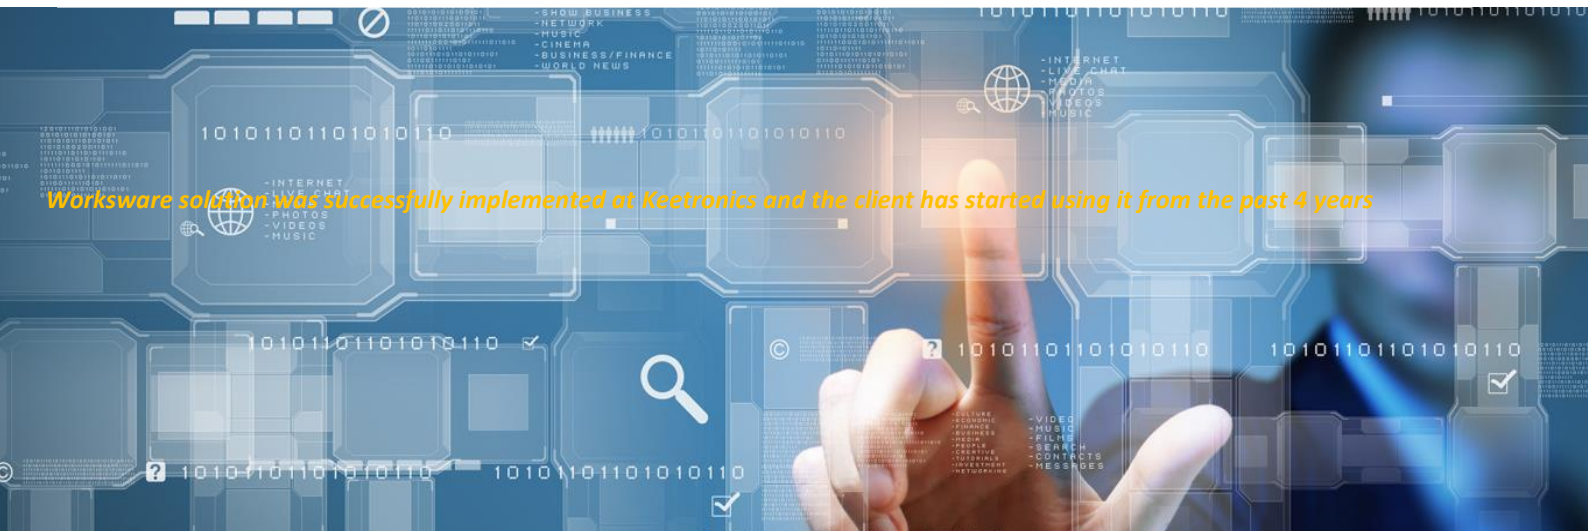

Solution offered to Keetronics

An Easy to Use ERP System with Strong Production Environment, Comprehensive Reporting, and Complete Visibility across the Entire Enterprise

Workware accommodates the needs of both small and large manufacturing, sales and distribution organizations and gives everyone in the company, complete control over their work area.

Modules offered for Keetronics for a smooth running of production process.

1. Sales module
2. Accounts module – General Ledger Accounts
3. VAT / Sales Tax module
4. Inventory Management module
5. Purchase & Pre-purchase module
