

## About Atlantis Consulting

Atlantis Cloud ERP solutions is a Canada based ITeS company headquartered in Toronto, Canada with development centers in Michigan, USA and Pune, India. Atlantis Consulting offers powerful software solutions aimed specifically at the manufacturing, distribution, e-commerce, retail sectors and Warehouses. Established in 1990 and is headquartered in Toronto Canada with development centers in India. We specialize in ERP solutions and offer cloud based and on premise solutions catering to the needs of every forward thinking enterprise.

Atlantis has a strong customer base in the Indian manufacturing industry with its flagship solution “**workware Enterprise Resource Planning (ERP) system**”. workware enterprise product line has been designed specifically for businesses in manufacturing, sales and distribution. The system gives an organization complete insight to the sales, production, inventory and financial data and makes it easy to identify the opportunities for cost savings and efficiency improvements.

Built on lean principles, Workware is highly scalable and has the ability to be your organisation’s core business system. It is a highly capable ERP solution that increases productivity, profitability and efficiency. It can fully support both simple and complex manufacturing and distribution processes without the need for extensive modifications. The comprehensive system provides full visibility of real-time data across the business empowering people to make informed, timely decisions.
